Functional Imaging Research Network (FIRN) Award

Canadian Foundation for Innovation awards \$9.7 million for the establishment of FIRN in Toronto. This amount has been matched by the Province of Ontario with an additional \$9.7 million, for a total of \$19.4 million. This award will provide the resources necessary to acquire new cutting-edge, state-of-the-art imaging facilities for the major research centres in the Toronto teaching hospital community (including a new PET camera for the CAMH). Of particular importance, this award will create one of the only programs worldwide aimed at integrating imaging information from a variety of traditionally independent sources (e.g. MRI, PET, MEG).
